

Our scope will be a chat box on the MyChart home screen that prompts users whether they would like to schedule an appointment.

Project Story

From an idea to come into shape in the real world, a project goes through multiple phases, below table shows the phases an idea needs to go through till it becomes a functionality that the user can use. The project phases are the Ideation, Planning, Executing, Launch, and Feedback and maintenance phase.

Project Phases

	Phases	Cost	Sept	Oct	Nov	Dec	Jan 2023	Feb 2023
Ideation Story We will be doing customer research and interviews, After reviewing the customer feedback we will decide the feature or functionality that we would like to work on based on the business and customer needs. Then will check whether to buy or build the product, if we would like to buy it, then contract management Sketching, Prototyping, and Brainwriting of how to build the feature or functionality	Ideation	\$4,000						
	Planning	\$3,000						
Planning Story Based on the Product requirements, We will create the project roadmap, Gather the project resources, and work on the Work breakdown structure and will create a product backlog and then create the Sprints based on the backlog grooming based on the prioritization of the features or functionalities to be developed	Executing	\$10,000						
	Sprint 1	\$1,500						
Execution Story According to the planning phase, we will develop the features of the product in the agile software methodology with the use of the scrum framework, will divide the all the product features into sprints based on the backlog grooming and prioritization	Sprint 2	\$1,500						
	Sprint 3	\$1,500						
Launch Story <div>After the reviewing of the product features acceptance criteria and after the quality check has been done. We will launch the product</div>	Sprint 4	\$1,500						
	Sprint 5	\$2,000						
Feedback, Maintenance Story After the launch of the MVP of the product, we will evaluate the product metrics defined and move forward	Sprint 6	\$2,000						
	Launch Phase	\$2,000						
	Feedback, Maintenance	\$3,800						
	Total Cost	\$22,800
