

## SCHEDULE APPOINTMENT CHAT BOX

PROJECT SUMMARY		PROJECT GOAL			
Currently UW Medicine customers can either schedule an appointment by calling or through a multi-step workflow in MyChart. Many users do not use the MyChart appointment scheduling feature due to its lack of usability, accuracy in availability, and lack of decision support about which type of appointment and with which provider type. Phone calls to schedule appointments also have their drawbacks.		The goal of this development is to make MyChart appointment scheduling more seamless and accessible by adding a human touch. This will boost patient confidence and ensure that appointments are scheduled with the right provider at the right time.			
PROJECT TEAM		ASSUMPTIONS		RISKS	
ROLE	NAME	<ul style="list-style-type: none"><li>User(patients) prefer to schedule via chat rather than call</li><li>User(patients) can articulate their symptoms efficiently via chat</li><li>English Translation services are not needed</li><li>Chat scheduling takes less time than phone scheduling</li></ul>		<ul style="list-style-type: none"><li>Users do not want to schedule via chat, call instead</li><li>Abandoned chats<ul style="list-style-type: none"><li>Patients starting chats and not finishing appointment scheduling</li><li>Technical disconnections</li></ul></li><li>Delayed responses from the scheduler</li><li>Chat to schedule takes more FTE than calling</li><li>Failed initial customer experience is threat to customer retention</li></ul>

VALUE PROPOSITION					
By enabling a direct messaging line through MyChart to schedulers, we save UW Medicine resources by reducing scheduling call volume while increasing user satisfaction in scheduling appointments via MyChart.					
KEY METRICS		BUDGET DETAILS and ESTIMATION			
<b>Retention:</b> <ul style="list-style-type: none"><li>Users who have booked appointments through the feature more than once in a year (%)</li><li>Appointments booked through feature that were rescheduled or canceled via phone call (%)</li></ul> <b>Activation:</b> <ul style="list-style-type: none"><li>Number of appointments scheduled through MyChart (%)</li></ul> <b>Revenue:</b> <ul style="list-style-type: none"><li>FTE required to monitor scheduling phone calls (\$)</li></ul> <b>User Satisfaction:</b> <ul style="list-style-type: none"><li>Avg time to book appt. (Minutes)</li></ul>		BUDGET DETAILS		ESTIMATION	
		Direct Cost:		\$12800	
		Development Cost		\$10,000	
		Service Charges		\$1,000	
		On-Site Visits		\$1,000	
		Other		\$800	
		Indirect Cost:		\$7000	
Training Costs		\$2000			
Knowledge Transfer		\$2000			
License Costs		\$1000			
Other		\$2000			
Ad-hoc costs:		\$3000			
		Total Project Budget		\$22800	
IN SCOPE		OUT OF SCOPE and CONSTRAINING FACTORS
